# A Strengthened Continuum of Care

## Family Strengthening & Reintegration

Focusing on household stability and family tracing to prevent separation and facilitate safe, permanent homecomings.

## Rescue & Stabilization Care

Providing immediate, high quality protection and trauma-informed care for children in crisis who require a temporary safe haven.

### Cross-cutting across program areas

#### Education & Youth Development

Preparing students for independence through academic excellence, vocational training and market ready skill acquisition.

#### Health & Holistic Wellbeing

Promoting physical health and emotional resilience through specialized psychosocial support to ensure children overcome past adversity and trauma.

#### Spiritual Formation & Community

Grounding every child in a Christ-Centered identity through deep discipleship and active participation in the local church. Strengthen our partnerships with the local church

### Enabling foundation across the whole model

## Organizational Capacity & Systems Strengthening

Strengthen internal systems (data gathering, financial, donor engagement and communication), staff capacity, develop monitoring and evaluation plans.

## Overarching outcomes for the entire continuum of care

1. Children grow up in safe, stable, and loving family environments, supported by Chariots' three-year per-family reintegration model and verified by rigorous wellbeing benchmarks.

2. Communities become active, supportive partners in protecting vulnerable children and strengthening family stability.

### 1 Rescue care and Stabilization

Children entering rescue and stabilization care are protected from immediate harm, supported in their physical and emotional recovery, and connected to a safe, appropriate next care arrangement guided by their best interests.

### 2 Family Strengthening and Reintegration

Families are equipped with the resources, skills, and support needed to care safely and consistently for their children.

### 3 Education and Youth Development

Young adults enter independent living with market-ready skills, having completed quality education or vocational programs that prepare them for financial independence.

### 4 Health and Holistic Wellbeing

Children and alumni possess the physical wellbeing, emotional resilience and life skills needed to navigate community resources confidently and build healthy, supportive relationships.

### 5 Spiritual Formation and Community and church engagement

Graduates are grounded in a Christ-centered identity, remaining active in their local faith communities and committed to a lifelong relationship with God.

### 6 Organizational Capacity and System Strengthening)

Chariots operates as a trusted, accountable, and sustainable care organization, with strong safeguarding, donor communication, staff capacity, governance, financial planning, and learning systems.
